# ALIVETASTE 2024

FIRST MONDAY,  
OF JULY

FROM 05:00 PM TO 10:00 PM  
PALÁCIO DO FREIXO

This year, we celebrate another edition of Alivetaste-Sabores da Vida, continuing our tradition of excellence and innovation in the world of wine, gastronomy, hospitality, and fashion. In 2024, we are once again bringing together an extraordinary group of talented chefs, wine producers, and industry professionals for an unforgettable evening of flavors, aromas, and networking.

Chef Mónica Pereira

# Délieux Portugal

Le meilleur de la pâtisserie portugaise

PHOTOGRAPHIE DE PEDRO RODRIGUES

In its eighth edition, the event features 40 wine producers, representing 10 different wine regions of Portugal, and 19 renowned chefs whose unique creations delight our senses. Additionally, there will be an exclusive fashion show where Prochef, in partnership with SEAQUAL, launches an innovative collection that gives a second life to plastics collected from the seas, transforming them into high-quality recycled fabrics.

We will also have the participation of international journalists and bloggers, who will share and document their experiences at this unique event. The interaction between producers, chefs, hotel directors, restaurant owners, academic and institutional entities will undoubtedly be one of the highlights of this edition.

We promise an unforgettable event, where tradition and innovation meet to celebrate the best that Portugal has to offer in the world of wine and gastronomy.

In addition to the main event, since 2023, the Alivetaste event has included a wine Masterclass for international journalists titled “Portugal, a World of Difference.” This Masterclass is organized in partnership with ViniPortugal and led by Bento Amaral and Tim Hogg. It features a special tasting focused on two themes: “A World of Different Trends in Regions and Winemaking” and “A World of Different Trends in Grape Varieties, Blending, and Viticulture.”

“Portugal, a World of Difference” is already recognized as a unique and exceptional event, having a significant impact on an international level.”

*the event:*

# PRESS TRIP INTERNATIONAL 2024

Since 2021, the international focus has been strong, bringing to Portugal various journalists and bloggers from different countries around the world. These visitors have been offered high-quality programs and tours of Portugal's diverse wine regions.

Regions such as Trás-os-Montes, Vinho Verde, Douro, Bairrada, and Dão have already been visited, with plans to cover all national regions. They will be revisited cyclically, also also highlighting the country's gastronomy and its consistent, high-quality hospitality.

We are pleased to have ViniPortugal and Viagens El Corte Inglés as our key partners, both of which bring undeniable quality, credibility, and value to this initiative.

Turismo do Centro [Tourism of the Center] is also a crucial partner for the integration of a vast national territorial region, complementing the Turismo do Norte [Tourism of the North]’s involvement.

Our top priority is indeed the international focus, which is essential for the structural development of Portugal, in the areas of quality wine tourism, gastronomy, hospitality, and national tourism. This initiative aims to elevate Portugal’s global profile, particularly among high-end market niches, which is especially important given the country’s size.

Só há  
um verão por ano.

**Fashion Show**

# **PROCHEF vs. SEQUAL**

Exclusive fashion show with a collection that gives a second life to plastics collected from the seas, transforming them into high-quality recycled fabrics

Prochef, aware of the importance of preserving our ecosystem and its social and environmental responsibility, will launch a new collection, this time in conjunction with SEAQUAL.

SEAQUAL gives a second life to plastics collected in our seas by fishermen and non-governmental organizations, to be transformed into fine threads for the manufacture of fabrics.

The result is recycled fabrics with controlled traceability manufactured responsibly and complying with all international quality standards.
